

"I realized to be successful in the reverse mortgage business it would take a longer time for senior clients to make up their minds to do a reverse mortgage. From the beginning it was essential to have a contact management system. A system that allowed me to track my senior data base, but I also needed a CRM that was easy to use, affordable and would integrate my proven content. I was able to find Work Center CRM. WorkCenter understands what it takes to be successful in the reverse mortgage industry, with technology that really works. If you are looking for a contact management database for your reverse mortgage operation that integrates your content and database, then I highly recommend WorkCenter CRM, by the makers of vForms. Every morning you log in and with just a few clicks you know exactly what you are doing and when to do it. To me, customer support was highly important, and you get it with WorkCenter, plus ease of use topped the list. I did not want a CRM system that turned users off, by saying this is too difficult to use and WorkCenter definitely fits the criteria I wanted and expected. Now the perfect combination, WorkCenter + SCM Content Package = Success. This team will add to your success by integrating campaigns and content to help you nurture, build and create synergies with your senior clients. "

Sam Collins

Yes, **SUCCESS** is at hand – you, Sam Collins and Work Center – a winning combination!

Sam Collins complete content package includes: emails, letters, reports, forms, all organized with logical approaches to steps in the reverse mortgage process. You get set campaigns "done for you" to provide marketing materials to your senior clients before, during and after your reverse mortgage loan closes. You will be head and shoulders above your competition, with Work Center and Sam Collins Content Library, you will find:

- A complete set of **letters, emails, reports, guides, self help guides and forms.**
- Your **corporate logo** and **personal contact information on each letter and email.**
- Personalized with **your individual senior client information**, populated automatically. No more cross referencing and searching for the right address. Once and done.

- Pre-formatted **e-mail messages** and **mail merge letters** for direct and e-mail marketing. Gently nudge your client with important information, all the while building rapport and relationship.

What about my current database? No worries, WorkCenter allows a seamless import of your data base. It's so easy and so important to have this ability, saving you time and money.

Action Plans are easy to use and require no more than a couple mouse clicks each morning! You control the flow, you control the effort, and you become the WINNER! WorkCenter is the only CRM (Contact Relationship Management) tool you need to help manage your senior client data to create more originations and have your clients recommending you to others.
